

## A brief tour of the OccuBrowse+/OASYS Browser opening screens:

The Browser's opening screen:

1. Most of the time users will go into the first option. Clicking here brings up the Browse screen shown below.
2. A unique cross-walk between occupations and likely employers (employer records ordered separately)
3. Look up School that offer training related to occupations.
4. OB+ will show civilian equivalents to military occupations, if they exist.
5. From anywhere in the Browser, you can switch between files.

To Find an Occupation Opening Screen

This is the most efficient & comprehensive occupational browser on the market!

1. **Trait Search** allows you to look up occupations by SVP, Strength, etc.
2. Most common search is by **key word** in title. Enter a partial spelling of what you are looking for. And then just click **Search**.
3. Or **Browse by Occupational Groups** – useful for looking up occupations by interest or aptitude (GOE, OAP) or industry (DIC) or by O\*NET code.
